

Appendix C

Map of Generally Infested Areas

Map of Generally Infested Areas

Each year an updated map showing generally infested areas is issued. This updated map is to be considered as part of the Gypsy Moth Program Manual.

The map showing generally infested areas in the United States is available at the following website:

<http://www.aphis.usda.gov/ppq/maps/>

A map showing generally infested areas in Canada is available at the following Web site:

<http://www.cfia-acia.agr.ca/english/ppc/science/pps/2000maps/ldcan2000.html>
